IN THE TITLE OF THE APPLICATION

~~Delete the title and insert therefor – A GAME USING GAME AND OUTCOME~~

INDICIA –

IN THE SPECIFICATION

At page 10, line 15 through page 11, line 5, please amend the paragraph as follows:

The game can also be played in a Stud version where the player has no opportunity to discard and receive replacements and can be played where the player can only discard one game card 18a-d and receive a replacement therefor. Still further, the game according to the method may be played using more or fewer game cards 18a-d such as two, three or five. Still further, the game may provide a jackpot bonus if the game cards 18a-d alone or in combination with the outcome card 30 20 form any specific one of a plurality of card combinations such as Poker ranked hands or one of a pre-selected schedule of bonus hands such as suited Kings and Nines, e.g. K♦9♦K♦9◊. For example, if the game cards 18a-d represent four cards to a Straight and the outcome card 20 fills a five card straight and is the a winning hand, i.e. the outcome card 20, depending upon the version of the game being played, is the lowest or highest card of the Straight, the player may be entitled to a bonus because the outcome card (5th card) fills a winning combination through the normal play of the game.

At page 24, please delete Abstract at lines 2 - 5 and insert therefor:

A device and method are set forth for playing a game where the player makes a wager to play at least two game hands. For each game hand there are displayed at least a plurality of indicia, such as playing cards, each having a value component and belonging to one of a plurality of characteristic sets, such as playing card suit. An outcome indicia is displayed and for each game hand the player wins or loses their wager based upon the relationship of the outcome indicia to the game hand indicia. In another embodiment the player may, for any game hand discard and replace at least one game hand indicia.
